SECTION 27 ALLIANCE
BUTLER COUNTY
Butler Township

Keeping the Frack Out of Our Neighborhoods!

BUTLER TOWNSHIP RESIDENTS ONLY!

Tell the Commissioners to Approve the Township's Revised Drilling Ordinance!

PETITIONING: Butler Twp. Commissioners Hasychak, Zarnick, Nedz, Wiest and Zurzolo.

Butler Township currently has in place a drilling ordinance that permits unconventional natural gas drilling virtually everywhere in the township, including residential neighborhoods. In May 2015 the commissioners introduced a revised ordinance that would prohibit drilling in R-1 Single Family Residential zones and restrict drilling in R-2 Multi-Family Residential zones to parcels of at least 100 acres, with a 750-ft. setback from any R-1 district and a 1,000-ft. setback from any existing building. Since their initial discussion, the commissioners have tabled any decision on this revised ordinance indefinitely.

While not perfect, this revised ordinance is a vast improvement over the current drill-anywhere ordinance with its 500-ft. setbacks in terms of protecting the health, safety and property values of people lving in Butler Township's residential neighborhoods. If you agree, please sign this petition and tell the commissioners to approve either this ordinance or one that provides even stronger protections for Butler Township's residential neighborhoods.
